Ovo je naša priča

Kao roditelj četverogodišnje djevojčice Eve, često razmišljam o budućnosti moje kćerke - u koji će oblik(e) izrasti, koji bi mogao biti njen poziv, koju će školu pohađati, koja su njena interesovanja, kako ih usmjeriti na pravi način. Svjesna sam da njena budućnost, razvoj karaktera i osobenost dijelom ovise od roditeljskog usmjeravanja, ali isto tako i od obrazovnog sistema u kojem će odrastati. To me dovodi do pitanja kako bi mogla izgledati škola budućnosti, budućnosti moje kćerke, njenih vršnjaka i sve druge djece koja rastu i koje očekuju školske klupe.

U vrijeme ekspanzije informacionih tehnologija još uvijek se učimo na suživot digitalnog i analognog svijeta. Istražujemo i osluškujemo kako jedno ili drugo utiče na kognitivni i emotivni razvoj naše djece. Da li spoznaja svijeta dodirom ili ostala čulnost djece doživjava novu fazu nezaustavljivog evolutivnog procesa? Koliko smo mi kao roditelji spremni da to prepoznamo, a koliko se brzo obrazovni sistem razvija i prilagođava novom dobu? Nedavni razvoj pandemiske situacije na globalnom nivou dodatno nas je sve, i djecu i roditelje, preko noći gurnuo u jedan potpuno novi svijet, u kojem smo gotovo sasvim lišeni neposredne ljudske interakcije i dodira. Šta spoznajemo i učimo iz ovog? Da li prepoznajemo da čitav svijet i sve njegove sfere mogu sasvim dobro funkcionisati i opstati samo u virtualnom svijetu? Da nam je raznovrsna i hrapava tekstura svijeta čula možda potrebnija nego što smo uspijevali dosad prepoznati? Da je suživot između ova dva svijeta neminovan?

U kompaniji Exclusive želimo ponuditi našu viziju Škole budućnosti. To ne znači da imamo sve odgovore na gore postavljena pitanja, ali znači da aktivno promišljamo o njima te da biramo vjerovati u svijet u kojem naša djeca neće ostati zarobljena iza plavičastog svjetla kompjuterskog ekrana, slušajući modificirane glasove njihovih učitelja, izolirani, otuđeni i usamljeni. Biramo vjerovati u svijet dodira, boje, teksture i zvuka, koji će biti barem jednako važan kao i impresivni svijet tehnologije. Biramo vjerovati u školu kao inspirativno okruženje koje uči našu djecu da osluškuju, zapisuju i ostvaruju svoje snove, školu kao mjesto u kojem djeca stiču nova znanja, ali još važnije, uče da svoje znanje uvijek nose sa sobom, da prepoznaju u sebi vještine koje će im pomoći da otklanjaju životne prepreke i da se sa izazovima suočavaju s lakoćom. Naš je izbor Škola budućnosti koja stimuliše maštu i potiče kreativnost djece, škola koja djecu uči jednakosti, poštivanju nejednakosti, značaju brige o generacijama koje dolaze i odlaze, o vrijednostima dijeljenja, poklanjanja i ljubavi. Ovo se sve ne može postići u skučenom prostoru stolice ispred ekrana.

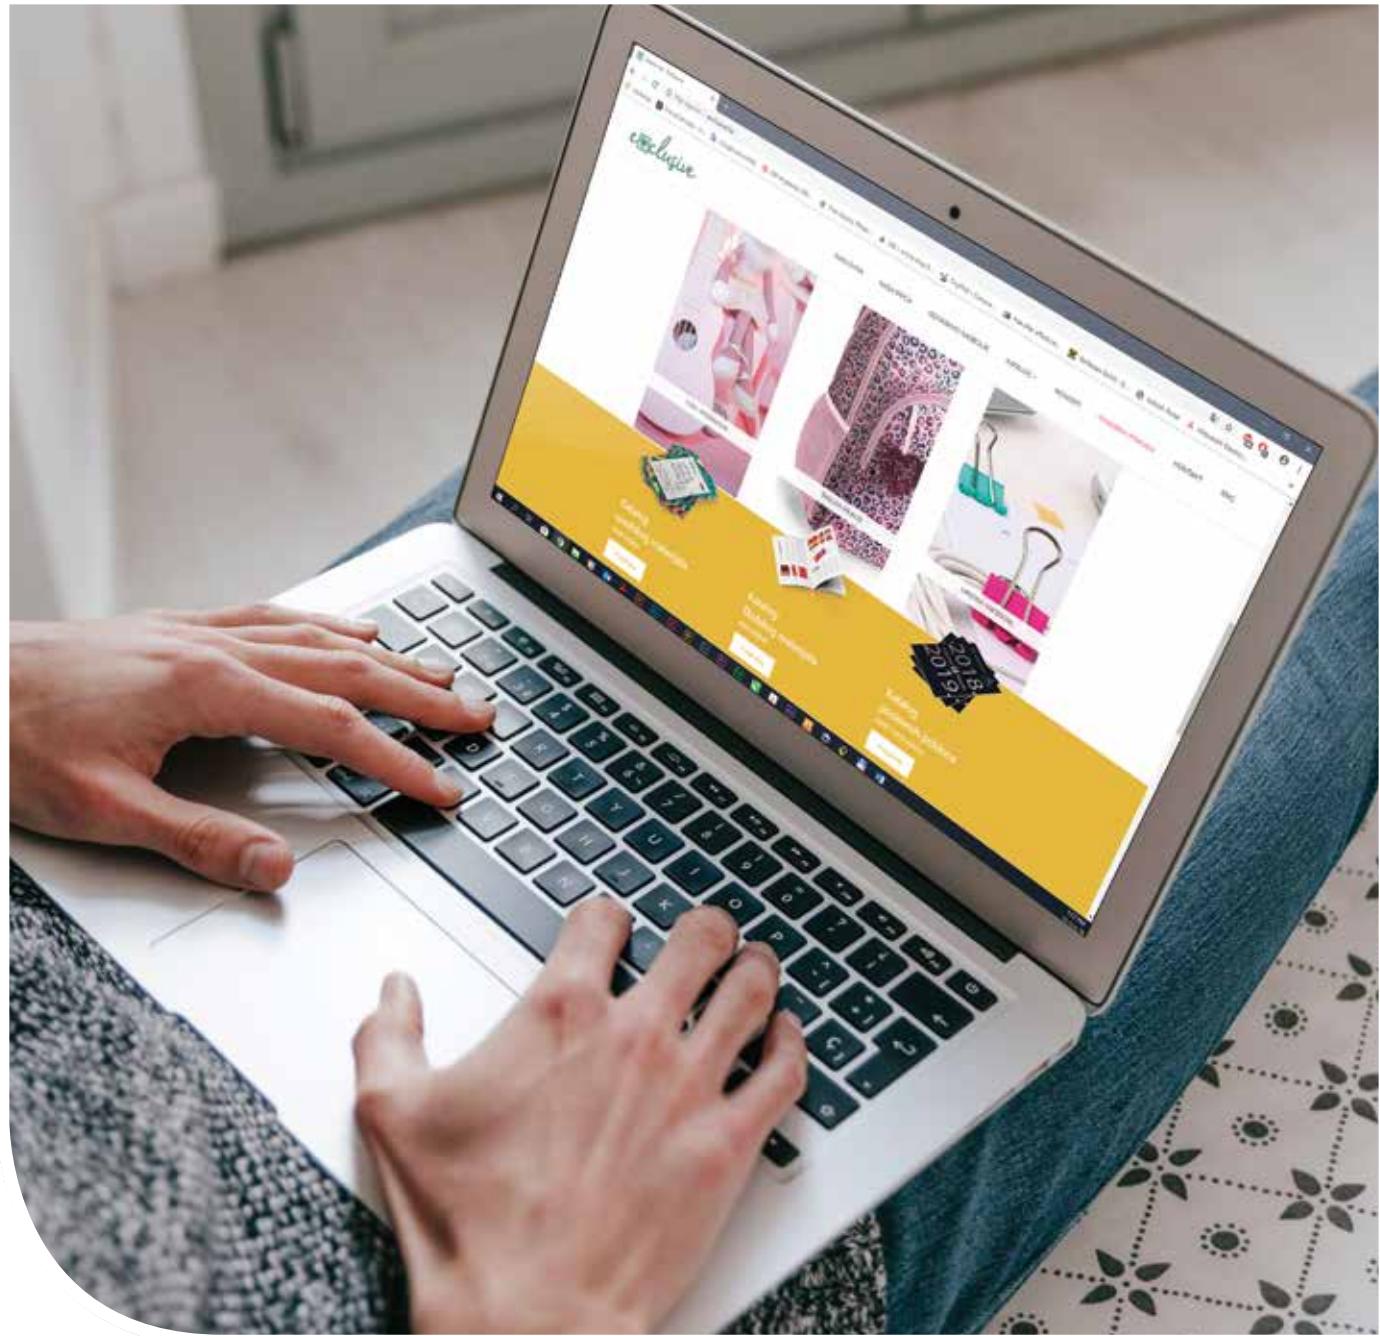

Kako želim svojoj Evi, tako želim i svoj drugoj djeci, njihovim roditeljima i porodicama, da nam djeca žive u boljem svijetu, u kojem će Škola budućnosti biti osnovni stub razvoja kako djece tako i društva u cjelini. Pridružite nam se u putovanju kroz inspirativni svijet školskog materijala i pribora.
